The Kansas City Star appears to be preparing the public mind for a very important announcement from Teddy. 1920 is not far away.

The Kansas City Star ought to be more lenient with the rascals of the Major administration, as it was partly responsible for Major's election. It spread poison far and near against a gentleman, who would have honored the state by every act.

City Election Called Off.

The city council Wednesday night rescinded the order made Monday night for a special election to fill the vacancy caused by the death of Owen Owen, city marshal. Mayor Minor then appointed H. A. Seitz to fill the vacancy.

This was a very wise proceeding on the part of the council as it saves considerable expense and assures the city the services of a sober and efficient officer.

The council did further good by instructing the City Attorney to push the collection of back taxes.

When about to buy an article such as a range, that plays an important part in the daily routine of the home, it pays to examine it carefully and be sure you are getting the best range value. A range expert from the factory will during the week commencing October 8, show you how the MAJESTIC is built, why it lasts so long and why it is the best value.

THE LIBERTY LOAN.

By W. G. McCausland, Secretary of the Treasury.

For the purpose of

equipping with arms, clothing and food our gallant soldiers who have been called to the field;

maintain our Navy and our valiant tars upon the high seas; providing the necessary means to pay the wages of our soldiers and sailors and, if the bill now pending in the Congress passes, the monthly allowances for the support of their dependant families and to supply them with life insurance;

constructing a great fleet of merchant vessels to maintain the line of communication with our brave troops in France, and to keep our commerce afloat upon the high seas in defiance of the German Kaiser and his submarines;

creating a great fleet of aeroplanes, which will give complete supremacy in the air to the United States and the brave nations fighting with us against the German military menace; and for other necessary war purposes.

The Congress of the United States has authorized the Secretary of the Treasury to sell to the American people bonds of the United States bearing four per cent interest, with valuable tax emptions, and convertible under certain conditions into other issues of United States bonds that may be authorized by the Congress. The official circular of the Treasury Department gives full details.

There is now offered to the American people a new issue of \$3,000,000,000 of bonds to be known as the Second Liberty Loan. They will be issued in such denominations and upon such terms that every patriotic citizen will have an opportunity to assist the Government by lending his money upon the security of a United States Government bond.

It is essential to the success of the war and to the support of our gallant troops that these loans shall not only be subscribed, but oversubscribed. No one is asked to donate or give his money to the Government; but everyone is asked to lend his money to the Government. The loans will be repaid in full with interest at the rate of four per cent per annum. A Government bond is the safest investment in the world; it is as good as currency and yet better, because the Government bond bears interest and currency does not. No other investment compares with it for safety, ready convertibility into cash, and unquestioned availability as collateral security for loans in any bank in the United States.

People by thousands ask the Treasury constantly how they can help the Government in this war. Through the purchase of Liberty Bonds every one can help. No more patriotic duty can be performed by those who cannot actually fight upon the field of battle than to furnish the Government with the necessary money to enable it to give our brave soldiers and sailors all that they require to make them strong for the fight and capable of winning a swift victory over our enemies.

We fight, first of all, for America's vital rights, the right to the unmolested and unobstructed use of the high seas, so that the surplus products of our farms, our mines and our factories may be carried into the harbors of every friendly nation in the world. Our welfare and prosperity as a people depend upon our right of peaceful intercourse with all the nations of the earth. To abandon these rights by withdrawing our ships and commerce from the seas upon the order of a military despot in Europe would destroy prosperity and bring disaster and humiliation upon the American people.

We fight to protect our citizens against assassination and murder upon the high seas while in the peaceful exercise of those rights demanded by international law and every instinct and dictate of humanity.

We fight to preserve our democratic institutions and our sovereignty as a nation against the menace of a powerful and ruthless military autocracy headed by the German Kaiser, whose ambition is to dominate the world.

We fight also for the noble ideal of universal democracy and liberty, the right of the smallest and weakest nations equally with the most powerful to live and to govern themselves according to the will of their own people.

We fight for peace, for that just and lasting peace which agonized and tortured humanity craves and which not the sword nor the bayonet of a military despot but the supremacy of vindicated right alone can restore to a distracted world.

To secure these ends I appeal to every man and woman who resides upon the soil of free America and enjoys the blessings of her priceless institutions to join the League of Patriots by purchasing a Liberty Bond.

Long-Distance Radio Message.

The United States government has recently completed a radio station at Pearl Harbor, Hawaiian Islands, which is the most powerful in the world, and is designed for direct communication with Washington and the Philippines. Exchange of messages have been carried out between Sayville, L. I., and the Honolulu station, a distance of approximately 5,000 miles, the world's record for long-distance exchange of communication by radio.

This is one of a chain of high power radio stations under construction by the Navy Department. The principal stations completed to date in this chain are Arlington, Darien, (Canal Zone,) and San Diego. The other stations at Cavita, Guam, and Tutuila will be completed in the next two months.
